Subject: Franks Tract Project

Looks like this project as forgotten the "Recreational boater" by blocking usage of the Three Mile Slough and False River though fairs.

Understand purpose of these proposed gates, but without a means to let boats pass thru via a locking system, they block passage. Keep in mind also that if a means to allow passage of water vessels there must be overhead clearance for sailboat masts.

Recreational boaters from Bethel Island area would be blocked off heading down river by the False River proposed location and would have to travel many extra miles and if wanting to reach the Sacramento Rive and Rio Vista area, many many more.

What consideration has the Department of Water Resources given to the recreational boater in is proposal. Remember we are tax payers too.

Respectfully, Douglas R. Murray, a concerned recreational boater
